*"enhance your creativity"*

## A world of difference

Ingredientbox Pty Limited, formally known as Cooke Aromatics, was established in August 1987. It is 100% Australian owned company specialising in the supply of high quality ingredients to the Food, Beverage and Flavour industries.

Ingredientbox represents a wide variety of reputable international manufacturers as their sole Australian agent.

Our quality management systems, coupled with a purpose-built product development facility, allows us to work alongside customers and provide unique, cost effective ingredient solutions and total technical support.

Ingredientbox specialises in providing solutions to:

- Nutritional Fortification
- Shelf life extension
- Flavour, colour and textural stability
- Salt and sugar reduction
- Scale up and production process improvement
- Ingredient cost optimisation and waste reduction
- Developing unique selling propositions and line extensions
- New product development
- Clean label formulation and development.

We provide a complete technical service to support our sales and marketing activities. Comprehensive ingredient information is provided in the production time zones of our customers. Furthermore, we work with our customers in the marketing, development and production areas to maximise ingredient impact and minimise waste.

Ingredientbox uses the services of specialised contract warehousing and logistics providers to ensure optimum quality and service for even the most demanding of customer requirements.

## When it comes to quality we only deal with the best

The range of products is diverse yet, at the same time, each complements the others. In addition, new suppliers and products are continually being sought and assessed for possible inclusion in our range.

The vast majority of products in our range are:

- Natural
- GMO free
- Halal
- Kosher

and are available ex-stock. Others can be imported promptly, or as required by our customers.

Ingredientbox has a diverse group of customers from global multi-nationals to small specialist manufacturers.

We take pride in our service and welcome enquiries at any time.

## High Standards

Ingredientbox considers the quality of its products and service to be of paramount importance and we continuously review our standards and procedures. Since their introduction Ingredientbox has achieved and maintained certification for Quality Standards AS/NSZ ISO 9001:2000 and HACCP 9000.
